ML ENGINEER · MLOPS

[LINKEDIN](#)

SUMMARY

B.Sc. IT graduate (9.63 CGPA · Batch topper) with 3 shipped ML projects in Computer Vision and NLP. AWS and Google Cloud ML Engineer certified. Builds and monitors end-to-end ML pipelines using TensorFlow, MLflow, and Docker — from feature engineering to inference. Published researcher. AIR 63 in NCAT.

PROJECTS

KairoAI - An ISL Learning Application

[Demo](#) | [Github](#)

(Skills : Flutter, Native Android, Python, Machine Learning, TensorFlow, Computer Vision, Docker, MLflow)

- Developed KairoAI, a Flutter-based mobile application designed to facilitate Indian Sign Language (ISL) learning through real-time sign language recognition.

Smart Face Proctor : An exam proctoring system using computer vision

[Demo](#) | [Github](#)

(Skills : Python, Django, Computer Vision, Machine Learning, REST API, Model Monitoring, Docker)

- Built an AI-powered online exam proctoring system using MediaPipe and Django to detect face absence and distraction in real time, enforcing configurable violation thresholds with automatic exam freezing and recovery.

DailyNest : All-in-one Life Aid for Autism Spectrum Disorder(ASD)

[Github](#)

(Skills : Python, Django, CNN, Machine Learning, NLP, Docker, CI/CD, Feature Engineering, Orchestration)

- Designed DailyNest, a highly structured, low-stimulus life aid for neurodiverse users, featuring an integrated CNN emotion recognition system (~71% accuracy) that adapts responses based on real-time user emotional states.

EDUCATION

Uka Tarsdia University — *B.Sc.(IT)*

- Completed B.Sc. (IT) at Uka Tarsadia University with a CGPA of 9.63. **Jun 2023 - May 2026**

Presidency School

- Completed my schooling in commerce field with 91.46% **Apr 2007 - May 2023**

AWARD AND ACHIEVEMENTS

- **Academic & Research Excellence** - Recognized as the Student of the Batch (2023–2026), achieved a 10 SGPA in the fifth semester, and published two research papers, receiving the Best Paper Award at the SRLIM Institute's 3rd Student Conference.
- **Problem Solving** - Attained an All India Rank of 63 in the national NCAT exam and completed the GeeksforGeeks GFG160 Challenge, along with solving over 150 LeetCode DSA problems.
- **Leadership & Technical Competitions** - Became a finalist in one of more than ten hackathons and successfully organized the university's Techfest as a Core Technical Committee Member.

CERTIFICATIONS

- **MLOps** - Earned the Google Cloud Professional Machine Learning Engineer and AWS Certified Cloud Practitioner certifications, demonstrating proficiency in cloud infrastructure.
- **Data Science & AI** - Earned Introduction and Intermediate Machine Learning Certificates from Kaggle and completed the Deloitte Data Analytics Job Simulation via Forage.
- **Databases** - Earned the Oracle DBA 11g/12c certification showing proficiency in Relational Database Management Systems.
